

CONTACT REPORT

AGENCY: Arizona Department of Health Services
ADDRESS: Phoenix, Arizona
PERSON
CONTACTED: Barry Abbott
PHONE NO.: (602) 257-2239
FROM: Jane Hoppin
TO: Tri-City Landfill File
DATE: October 28, 1986
SUBJECT: Tri-City Landfill
cc:

The DOHS has no jurisdiction at the site because the site is on Indian land. In ca. 1980, the landfill washed out due to flooding. The landfill was filled in, however no flood protection has been built. Mr. Abbott was out near the landfill last winter while the river was running and noted that the landfill was only five feet above the water level. In severe flood conditions, it would be under the water level.

He suggested I contact Chuck Graff of the DOHS - Hydrology Department at (602) 257-2357 or Sandra Eberhardt of DOHS at (602) 257-2336. He also suggested that I try to get a copy of the Maricopa County Association of Government's Report called "Volatile Organic Contaminants and DBCP in groundwater in Mesa" prepared by Ken Schmidt and Associates in August 1986.
